

TIER 0 PLUS EMISSION KITS

CERTIFIED & APPROVED BY THE EPA

AS ONE OF THE FEW
SUPPLIERS OF TIER 0 PLUS
EMISSION KITS, NRE IS LEADING
THE INDUSTRY IN BOTH
QUALITY AND PERFORMANCE.

NRE kit components include certified new or rebuilt NPOWER Power Assemblies, emission injectors and a new six pass aftercooler. Optional equipment includes turbocharger or engine blower. These kits not only increase engine life, but by reducing air box temperature, it allows the engine to perform more efficiently thereby reducing emission output and fuel consumption.

NRE KIT COMPONENTS

NPOWER POWER ASSEMBLIES

- All new assembly components thereby increasing engine life

EMISSION INJECTOR

Designed specifically to reduce emissions •

NEW SIX PASS AFTERCOOLER

- Improved design aftercooler
- Reduction in air box temperature allowing the engine to perform more efficiently thereby reducing emission output and fuel consumption

OPTIONAL EQUIPMENT

BUILT TO NRE SPECIFICATIONS AND STANDARDS.
